BASIC BANKING

MODULE 1:
Money and banking

Basic banking skills are essential for everyday living. This module discusses the history of banks and why its a good idea to keep money in the bank.

MODULE 2:
Opening a bank account

Opening a bank account is the first step towards financial security. This module covers how to open a bank account and how to use it on a regular basis.

MODULE 3:
Loans

This module discusses different kinds of loans and what responsible lending is. We look at how to spot a loan shark and why it pays not to borrow too much or live beyond your means.

MODULE 4:
Interest and inflation

In this module, we look at what interest and inflation is. We answer questions like: How can it work for you and your savings? How can it work against you? What is the best way to use compound interest?

MODULE 5:
Other financial products

Banks offer many kinds of products. This module discusses what these products are, how they work, and how each can help you.
